TECHNICAL INFORMATION

FLYING

Winch Flying

The Humphreys theatre has 4 mortised trusses used for lighting equipment only. Each truss has a 200 KG Safe Working Load. These are operated from the fly floor and are not usable for in show use.

POWER

There is a 32a 1phase socket (location: Down Stage Right - DSR)
There are also a number a 13a sockets around the stage.

ACCESS

There is a Sky Jack SJIII 3226 that can be used by anyone holding a valid iPAF qualification. There is also a set of 10 and 12 rung Zarges.

ADDITIONAL RESOURCES

LD Systems Road buddy 10 (portable PA system)

PRODUCTION FILE

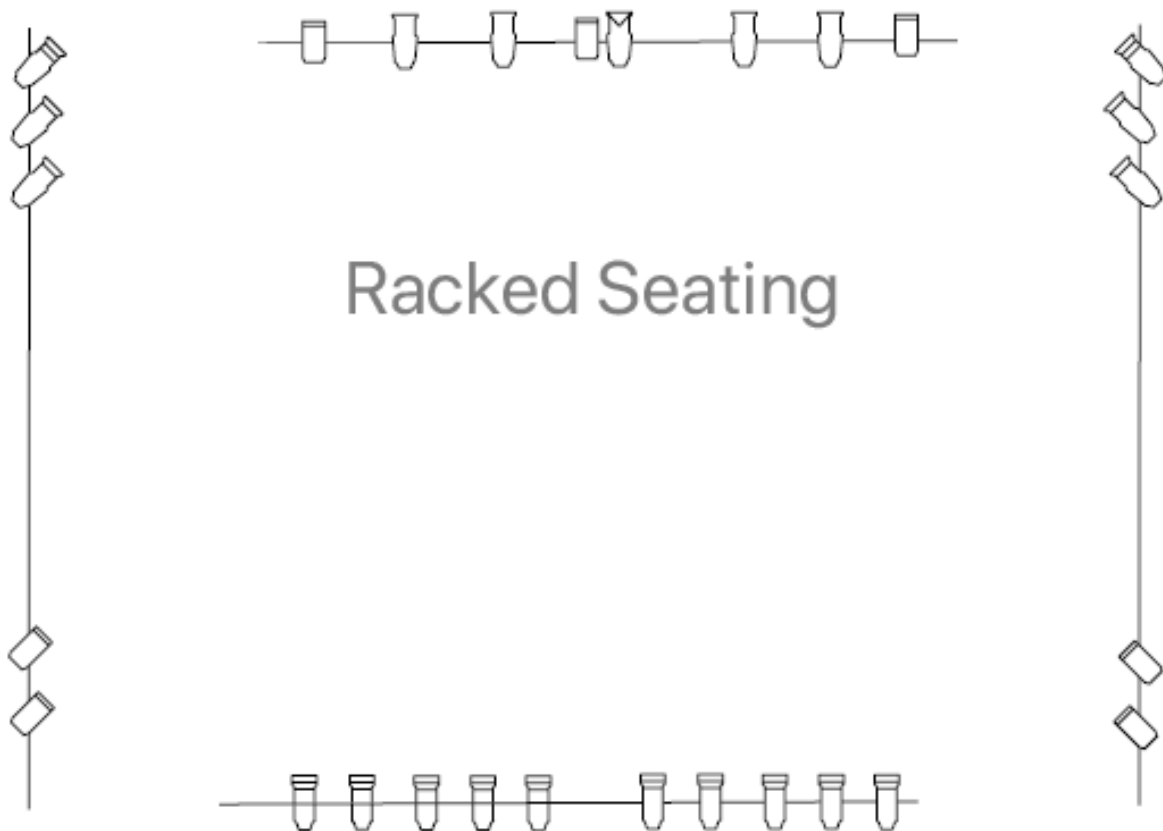

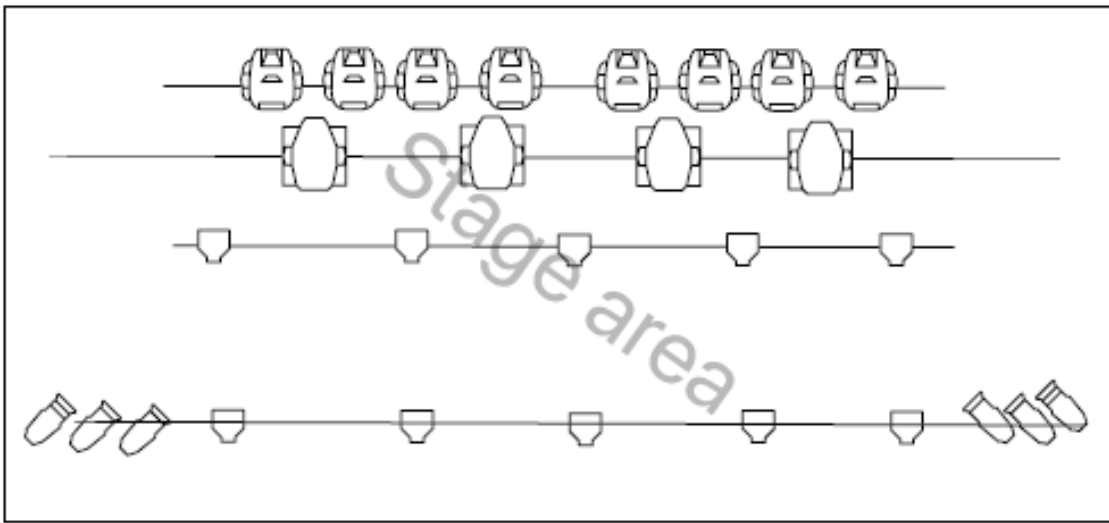

Prior to arrival the Visiting Company will be asked about a Production File that carries full details of the Production. This will help us satisfy ourselves that all of the arrangements for the Production are in order and safe. Please contact the Venue & Events team for clarification on any point.

LIGHTING

We have a standard lighting plot for the theatre directed onto the stage suitable for general wash. There are six areas of isolation and lights can be refocused if needed provided that enough notice is given, and extra charges may be incurred. Please enquire as to the possibilities to make your show a lighting success.
